Cash-handling machines without downtime = satisfied customers

About 90% of all failures from ATMs are due to contamination - regular preventive cleaning protects machines against failures and breakdowns. And you from unpleasant service costs and lost revenue.

Elix Clean Cleaning Cards are simple to use:
Once a week - best to introduce a wet cleaning card - use two or three times - done!

Elix cleaning cards open the access control (shutter) of ATM's and mail machines as usual banking and credit cards while inserting the cleaning card.

Effective cleaning thanks to the brushing effect in our flocked cleaning cards

The excellent dirt absorption through flock hairs prevents the mere distribution of dirt in the inside of the card reader. The dirt particles will get absorbed by the flock fibers and removed through taking out the cleaning card.

Cleaning action in test.
Is how the flocked Elix Clean Cleaning Card impacts:
The deposits on the die pad
have disappeared completely (right picture).

picture: Sulzer Innotec

Our service:

- We develop cleaning solutions for specific customer requirements.
- Private Label: ECS products on request are available with your own company logo.
- Technical advice: We consult you with the choice of cleaning systems and help you to find the right solutions.

Orders online at www.elixclean.de or www.ecsag.com

Cleaning Cards without Magnetic stripe

- EFT/POS Cleaning Card for systems with motorized and manual insertion, push-in
- Applications: Payment terminals, petrol stations, food and drink vending machines, ticket vending machines, security access systems, gaming machines, cigarette vending machines etc.
- For the cleaning of mechanical and motorized insertion readers and swipe readers

Premium cleaning card – Flocktechnology

337 Cleaning card, moist

- 2-sided flocked, in tear-open pouch

307 Cleaning card, moist

- 2-sided partially flocked, in tear-open pouch

Article	Content	Dimension
307.020.000	20 pieces	54 x 86 x 0,96

Cleaning swab

- For all automated systems, electronic and technical equipment.
- To clean inaccessible areas.

560.025.101 Standard cleaning swab

- With an extremely soft PU foam head which doesn't scrape or scratch
- Cleans gently and leaves no residues
- Length: 112 mm

560.025.000 Premium cleaning swab

- With an extremely soft PU foam head which doesn't scrape or scratch
- Cleans gently and leaves no residues
- Chemical resistant
- Length: 115mm

561 Cleaning swab with cotton head

- Cleaning swab in wood with cotton head
- Length: 150 mm

565 Microfiber cleaning swab

- Particularly narrow head
- Improved cleaning action by microfiber
- Length: 112 mm

563 Cleaning nonwoven fabric sock with wood spatula

- For all automated systems, electronic and technical equipment: card reader, coin testers, keyboards, slots on automated dispensers etc.
- To clean inaccessible areas
- Fiber-free, tear-resistant textile cloth
- Binder-free and chemical-resistant

Article	Content

213.015.000	15 ml

Cleaning kits

801 PC cleaning kit for single cleaning

- For PC workstation equipment, such as monitor, keyboard, mouse, telephone, copier, etc.
- Content:
 1 wet/dry screen cloth in double bag, 1 wet/dry keyboard cloth in double bag
 1 cleaning swab with PU foam head

804 All-round Cleaning Kit

- For bank note acceptors, cockpit-instruments, screens and monitors
 - Removes dirt carefully and effectively from glass surfaces, cleans absolutely streak free
 - Best results due to cleaning cloths made from mixed textile fiber, free of binders
- Content:
 1 Display- and multimedia cleaner, 30 cleaning cloths - Packed in a bag

PC cleaning kit for repeated cleaning

- For PC workstation equipment, such as monitor, keyboard, mouse, telephone, copier, etc.
- The cleaning kit has everything you need to clean a PC workstation.

809 PC cleaning kit

- Content:
 1 display cleaner, 1 plastic cleaner, 50 cloths, 1 plastic spatula

810 Small PC cleaning kit

- Content:
 30 textile cloths, 150 ml bottle of office cleaner, 1 plastic spatula

Orders online at www.elixclean.de or www.ecsag.com

862 Cleaning Kit for coin acceptor

- To clean hard to reach areas and interstices such as coin validators and mouthpieces of machines
- Removes dust, oxide particles, abrasion residues, grease, etc.

Content:

25 nonwoven fabric socks, binder-free, stitched 2-sided, 5 wooden sticks 14 cm long, 30ml Electronics Cleaner

Complete cleaning of automated systems

- The "all in one" Elix cleaning set contains everything you need for professional cleaning and maintenance of machines
- For all automated systems, bank cash dispensers, post office cash dispensers, bank information terminals, payment terminals, petrol station payment points, food and drinks vending machines, ticket vending machines, gaming machines, cigarette vending machines

SafeZoneCleaner for plastic, glass and metal

- For aviation industry, machine industry, data technology, medical technology and automotive technology etc.
- All-purpose foam cleaner for glass, metal, ceramics, polycarbonate, acrylic, plastic and Plexiglas etc.
- Recommended by aviation manufacturers to clean aircraft instruments and Lexan surfaces

MS.260 Foam Cleaner

- National Stock Number (NSN) 7930-01-064-5179

MS.262 Liquid cleaner

- National Stock Number (NSN) 7930-01-064-5179; Boeing Specification / Acryl Cleaning BAC5038; Aircraft General Cleaning Specification D6-17487

MS.242 N Quick-Freeze

- Dry Freeze Spray for cooling smaller areas
- For thermal tests of electronic components
- To protect components during soldering
- Used with the airlines for removing dirt (e.g. chewing gum.) on textiles
- To be used for the freezing of biological samples
- Cleaning of molds in the industry (removal of plastic residue, epoxy, etc.)
- National Stock Number (NSN) 6850-01-333-1841

PTFE Release agents / dry lubricant

These products provide excellent separations for plastic, Elastomer- and resin materials including acrylic, urethane, rubber, nylon, epoxy, polycarbonate and polystyrene. They are designed to achieve multiple separations. They are for the areas of application to 304 ° C (580 ° F) recommended. As dry lubricant can be used on metal, glass, ceramic, rubber, elastomer, wood, paper and some plastics.

- No perceptible delivery
- Non-flammable
- Does not contain silicones

MS.122AD Release agents / dry lubricant

- An excellent and economical universal release agent, highly effective when applied to rubber molds.
- Our best dry lubricant, for all applications. May be used on all surfaces, especially where there is metal on metal contact.
- NSN 9150011-528-5624

MS.122XD Release agents / dry lubricant

- An excellent release agent with the added advantage of superior release action in the initial cycles.
- Works well for all applications.
- A very good general purpose dry lubricant for all applications.

MS.136W Water Based Release Agent for Hot Molds

- PTFE Release Agents is ideal for elastomers, including natural and synthetic rubber, EPDM, NBR, silicone, Viton and neoprene, and most plastics and resins.
- For applications on pre-heated forms of 100 ° C / 212 ° F to 285 ° C / 550 ° F,

On request we will send you our special catalog for release agents and lubricants to dry

Sprayduster

720 Sprayduster

- For all automated systems, electronic and technical equipment
- Efficiently cleans difficult reachable areas in equipment (electronics and mechanics)
- Removes finest dust of any type right down to microscopically small dust particles
- High level of purity, non-flammable
- Machine failures due to contamination and dirt are drastically reduced
- Simple and easy handling
- Sprayduster in spray in aerosol can with spray nozzle and tube

740 Sprayduster „High Pressure“

- For all automated systems, electronic and technical equipment, efficiently cleans difficult reachable areas in equipment (electronics and mechanics)
- Removes finest dust of any type right down to microscopically small dust particles
- High pressure, high level of purity, non-flammable
- Machine failures due to contamination and dirt are drastically reduced
- Simple and easy handling
- Sprayduster spray in aerosol can with spray nozzle and tube

721, 741 Extension tube to sprayduster with spray nozzle and connector

- Accessory to Sprayduster ELIX 150 ml, 300 ml or 400 ml
- To easily access areas which are difficult to reach
- Simple insertion to spray nozzle
- Length: 70 cm
