

# LHW Partnership

## Service Overview 2016

### TECHNICAL ADVICE

---

- Feasibility Studies
- Due Diligence
- Technical Specifications
- System Design
- Export Constraint Modelling (Yieldworks)
- Grid Connection Services (Elec. & Gas)
- System Modelling (inc. shading)

### INSPECTION SERVICES

---

- Solar PV Inspections (IET Code of Practice)
- System Design & Verification
- I-V String Curve Testing
- System Performance Review
- Infrared Inspections (inc. Aerial inspections)

### INFRARED INSPECTIONS

---

- IR Inspection (Level 2 Thermographers)
- Solar PV Inspections
- Electrical Equipment
- Building Inspections

### ADDITIONAL SERVICES

---

- ESOS Lead Assessors
- Energy Management
- Planning
- Off-grid Systems

Services are offered for a range of technologies, including solar PV, solar thermal, ground source and air source heat pumps, biomass and wind
