

Pizza Oven Supplies Price list May 2021

Here's a chance to get your pizza oven project up and running at a great price. Please call Sam for additional information 07722 753975

Pizza Oven Range

The Naples 600 Pizza Oven is a two-section pizza oven having a 600mm wide cooking area, big enough for the largest pizza. Reaching well over 500 degrees C it will cook your pizza in minutes. This is our smallest oven available and has a built-in refractory brick floor that is ready to cook on. No need to lay refractory bricks.

Naples Oven Kit with Accessories includes:

- Two Piece oven with refractory bricks sunk into oven floor.
- Insulation Kit – Kiln blanket, Vapour barrier, chicken wire.
- KOS fireproof 1250c cement
- Stove enamelled flue 125mm x 500mm (longer lengths available)

Price £640.00 inc Vat

Delivery to most areas is £70.00

Minimum base required for this oven is 1000mm diameter/square.

The Milano 750 Pizza Oven is our **best seller** for both domestic and commercial use. This has a 750mm cooking area and also comes in seven sections for easy lifting.

Milano 750mm oven kit with accessories includes:

- Seven-piece refractory oven
- Pre-cut 2" refractory bricks for the oven floor
- Insulation Kit – Kiln blanket, Vapour barrier, chicken wire.
- KOS fireproof 1250c cement
- 125mm x 500mm enamelled flue
- Price £840.00 inc Vat

Delivery to most areas is £70.00

Minimum base required for this oven is 1250mm diameter/square

Roma 900 Pizza Oven is the largest in our range and is generally used for commercial use although can be used domestically if you have a large enough area.

The Roma 900mm oven kit with accessories includes:

- Refractory and insulated two-piece round oven floor with 900 mm wide cooking area
- Three-piece refractory dome with 500mm opening
- 40 2" Refractory bricks
- Fireproof cement
- Chimney 500mm x 125 mm stove enamelled flue. (Longer lengths are available)

Price £1000.00 inc Vat

Delivery £70.00 to most areas

Minimum base required for this oven is 1400mm diameter/square

Additional Extras

Look at what else you may need and order with your oven to save on delivery costs. These now include VAT

Chimney 125mm wide x 500mm long

Price £30.00 inc VAT

Chimney 125mm wide x 1000mm long

Price £42.00 inc VAT

All our flues also have male/female ends so can slot together to extend if needed.

Cast Iron Flue Damper

This cast iron flue damper fitted to the chimney helps retain heat when slow cooking. It also controls the draw on the fire to help with temperature control. You will need to drill a hole in your flue to fit it.

Price £18.00 inc VAT for 5 inch

Price £21.00 inc VAT for 6 inch

Please read this before ordering

During these strange times we like every sector of the building and manufacturing are finding it much harder to get hold of materials. Bricks have gone up around 40% with a 12 week wait. We usually use an lbstock off shade brick and tumble them to give the effect of a reclaimed brick but with the benefits of a new brick.

Colours of the bricks may vary but we always strive to give the same effect. We also now buy up large stocks of new best bricks when available at a good price.

Delivery.

Please don't book your builders in too close to your delivery. Things do go wrong! The pallet network sometimes is just too full, roads have accidents on them, trees fall and so on.

The delivery is an all-day delivery as the lorry contains large objects that means that some could take 5 minutes to unload, the next could take half an hour.

If for some reason they do not get to you that day, they will do their best to deliver it the next day or Monday if they can't do Saturday. Unfortunately, we cannot compensate for lost time, either yours or your builders.

Missing Items.

We sometimes struggle to get all components in, especially during the pandemic. We will do our best to provide you with essential items, but things like doors, cowls, door handles etc, basically things we buy in are sometimes on back order. These can take quite a few weeks to arrive.

If there is anything that we feel will affect your build, we will contact you to see if you want to re-arrange. Again we cannot compensate for lost time on items we cannot get ourselves.

Let your imagination run wild and design your own bespoke oven without worrying about what materials to use for the refractory part of your oven and more importantly if it's going to work properly. We and our customers (over 3000) know they do, and here's some of their oven builds
