

## Sleepace Elderly Care Solution Pro - Bed Exit Mat

# A Smart Mat to Help Prevent Fall & Wandering

### Instant Alert for Safer Care

Send alarm when leaving bed is detected, help prevent fall and wandering especially in the middle of night.

### Compatible and Easy to Set Up

Easy to combined to the smart care monitor for vital signs tracking.

### Dual Monitoring

More accurate for bed exit monitoring, reduce false alarm by others.

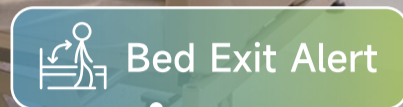

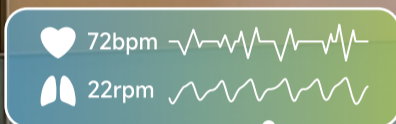

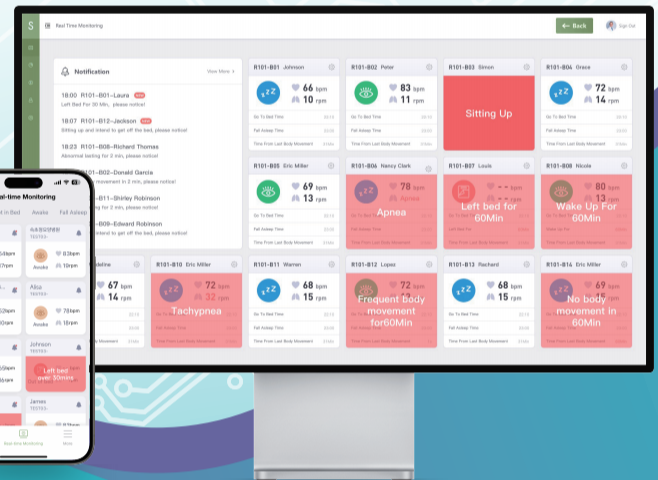

### Multi-Ways to Send Alerts

Send alerts to caregivers via PC, app, phone, messages

### Safer Design

5mm ultra thin to prevent fall. Slip-resistant bottom to ensure it stays firmly.

## Sleepace Elderly Care Solution - Smart Vital Signs Monitor

# Continuous Vital Signs Monitoring for Better Care

### Real Time Vital Signs Monitoring

Heart rate, respiratory rate, body movement, in/out of bed status, awake/asleep.

### Abnormalities Alerts

Send alert when abnormal heart rate, respiratory rate, sleep routine or health risks occur via web and mobile.

### Sleep Health Management

Scientifically analyze vital signs health data (e.g. atrial fibrillation risk level and AHI), to detect health problems earlier and achieve intelligent health management.

### Centralized Management

Multi-bed nursing and remote care management for both nursing home and individual home, better for caring efficiency and time management.

### Remote Care

Both caregivers and family members can view user's sleep report, health archive and get abnormal alerts.
