

xsens MVN REPORTS

BRIDGING THE GAP BETWEEN

DATA & ANALYSIS

WHAT IS MVN REPORTS?

With MVN Reports you can easily generate automated reports for Health, Ergonomics and Sports. Powered by the new Xsens MotionCloud platform, MVN Reports instantly present complex movement data in an accessible, easy-to-read report.

IT IS PERFECT FOR:

COMPANIES

UNIVERSITIES

RESEARCH FACILITIES

UNDERSTANDABLE

MEANINGFUL

USABLE

TECHNICAL USERS ✓ NON-TECH USERS ✓ EVERYWHERE ✓ EVERYONE ✓

HOW DOES IT WORK?

- 1** Capture the data using any Xsens system
- 2** Upload the data to the Xsens Cloud
- 3** Analyze the data in the Xsens Cloud
- 4** Get the report via the Xsens Cloud platform

BENEFITS

A tool for assessing ergonomics in factory conditions

Easy creation of meaningful ergonomics analysis

Saving of time

Magnetic immunity

ERGONOMICS REPORTS:

RULA

REBA
(coming soon)

Adjustable
Ergo Report
(coming soon)

NIOSH
(coming soon)

RULA REPORTS:

Automized calculation for every frame

Export data from a specific frame

Arm and Wrist Analysis
Neck, Trunk, and Leg Analysis

RULA score and risk factor

Specifying load, support, and muscle use

3D Visualization of recording

RECOMMENDED ERGO BUNDLE:

MVN Awinda Starter
+ MVN Basic
+ MVN Reports
