Why a Noorlander organ?

An organ should arouse your senses. The sound is very important but so is the organ console itself. Noorlander Organs leads in this field. Our organs have a very realistic (pipe) organ sound, thanks to very advanced Hauptwerk technology.

For optimal use of Hauptwerk we have developed special hardware and software.

Our organs have a fantastic sound reproduction system aided by a Noorlander Organ Manager. This software automatically regulates the power, audio and midi.

The finishing touches can be done to match your other furniture. All operating controls are carefully disguised in the organ console.

We can offer you personalized advice and a premium guarantee. Do you need help? Through internet we can offer you the help you need.

About Hauptwerk

Technology

Hauptwerk is a technology which we use for the sound reproduction. This computer programme makes it possible to play virtual pipe organs. The original pipe organs have been recorded pipe by pipe. And not only that, even the sounds of the tracker action and room acoustics have been included. All of these sounds combine to make what we call a *sample set*.

Organs

Many famous and important organs have been recorded for Hauptwerk and many more are to follow. The reality of the sound can be compared to that of a CD. Hauptwerk technology not only appeals to the imagination, but also brings your favourite pipe organ into your living-room.

The possibilities with Hauptwerk are almost endless.

Menuett III

The perfect combination!
50 wooden draw stops innovatively combined with retractable touch screens.

Classic version with wood carving ▲

The organ console has a compact design. Changing from one sample set to another or activating other Hauptwerk functions is easy with the retractable touch screens.

Do you prefer wooden draw stops? No problem! The attractive draw stops have exchangeable name plates.

High end speakers pointing upwards offer a full and roomy organ sound. It is also possible to place extra speakers in the front of the optional top. All of this makes the Menuett III the ideal organ for every living space!

The Hauptwerk organ for every living space

This organ is unique for a variety of reasons:

- Up to four manuals
- Compact positive organ model
- Up to 58 draw stops
- Possibilities include a luxury version with authentic details
- Pipe front or alternative top are possible
- Tall and low versions
- 11 free pre-installed sample sets
- Headphone connection
- Your choice of finish and colour

With raised top and 58 draw stops ▲
