

## Our Training Location

The location for our courses to train specialists in agrotourism is situated at the doorstep of Fischland. It is an agrarian-oriented enterprise with horse keeping, a riding school and a children's zoo including a holiday complex with vacation apartments and holiday cottages up to the five-star category.

We can offer you optimal conditions for this practice-oriented qualification. You will have the chance to do a course where other people are on holiday!

## Accommodation

For the duration of the course, accommodation is possible in modernly equipped apartments in the direct vicinity of the training location.

## Contact and Registration

Have you become interested? Please call us. We are ready to talk to you personally.

# Specialist in Agrotourism

This training course is a certified qualification in the area of agrotourism, which combines the knowledge of agriculture with touristic knowhow and basics of education in nature, the environment and the experience world.

In addition to the agricultural knowledge and the comprehensive service for our guests our training will also impart organisation, planning and execution of experience-oriented/ adventure events for children, teenagers and adults. Our aim is to prepare you thoroughly for a job on farms and in enterprises of agrotourism. Make use of this opportunity to acquire a new professional qualification!

## The Contents of the Course

The course will last for 6 months and is designed for full-time education. It consists of the two parts 'theory' (1/4 of the time) and 'practice' (3/4 of the time) and comprises the following learning fields:

### Field 1: The Agricultural Product

- Animal Husbandry: Basic knowhow/ Feeding/Care and Animal Health
- Plant Production: Support of Soil Cultivation/Growing/Harvesting

### Field 2: Contact with Guests

- Communication Activities
- Welcoming guests and Caring for them
- Informing guests about our services and products

### Field 3: Designing educational events in nature, the environment and the experience world

- Planning and performing experience-oriented educational events
- Planning and designing fields of experience with nature
- Planning and organising programmes of the day and of leisure time

### Field 4: Rural Domestic Economy

- Preparing guest and conference rooms in relation to offers and occasions

# Completion of the Course

The successful completion of the course will enable you to work in any enterprise of agriculture and agrotourism. You will acquire the following qualifications:

- Certificate as Specialist in Agrotourism (Service Section), approved by KTL
- Certificate for Basic Knowhow of Education in Nature, the Environment and the Experience World

**We guarantee a job offer to each of our graduates!**

## The Possibilities of Promotion

The costs for the course, for travel, alimentation and accommodation will be borne by the Job Agency/Jobcenter or your individual service provider respectively, as long as the necessary prerequisites for promotion are there.

Please contact your adviser at the Job Agency/Jobcenter or at your service provider for an education voucher.

## The Prerequisites

- interest in the contact with people, animals and agricultural products
- physical fitness for an occupation in agriculture (no restriction concerning age)
