LEARNING FASTER WITH THE SAP WORKFORCE PERFORMANCE BUILDER (WPB)

SPE
Unternehmensberatung

FAST AND COST-EFFICIENT EDITING OF KNOWLEDGE

The expertise within the area of energy supply (SAP for Utilities) is becoming ever more demanding and wide-raging. This imposes high requirements on the acceptance of knowledge, understanding and sustainability of information. The training costs also play a significant role. Consequently, new demands are placed on the form of knowledge preparation and presentation. That means make knowledge miscellaneous and experienced, address and motivate users through different learning channels. With SAP Workforce Performance Builder you can interactively and in multimedia form design and edit e-learnings for business processes, documentation or soft skills, for example.

ONE RECORDING –VARIETY OF APPLICATIONS AND SOLUTIONS

SAP Workforce Performance Builder is giving you the capability to quickly and effectively create and distribute training material with a single source technology. You can do the following:

- CREATING
  You can create a vast array of formats (Word, PDF, Power Point and HTML) in accordance with your corporate design with just one touch of a button/recording , you can create.
- PREPARING
  You can prepare interactive simulations and test for important topics.
- PROVIDING
  You can provide context-sensitive user guides for your employees in the productive system.

OUR EXPERIENCE WITH THE AUTHORING TOOL SAP WPB

We have been using WPB successfully for years in our company. The authoring tool was efficiently used especially in our trainee programs.

- Fast training of new employees with e-learnings for business processes and a subsequent test to check their progress
- Fun to learn through variety of methods such as quiz, puzzle, fill in the blanks, true or false exercises etc.
- Re-recording of changed business processes (e. g. release change)
- Fast and easy use of the Instant Producers (iPro) by SAP specialists without previous training
- Methodical and didactical preparation of the contents with the Producer
- Creation of a uniform corporate design in accordance with SPE requirements

WPB Trainings
