BETHPHAGE

Our vision is of a society where people with disabilities have the same opportunities to develop and use their talents as all others. We support people who live in their own home, a home they share, small residential registered care homes or living with other family members. Bethpage supports people to make the most of their skills by helping them to find work or go to college and enjoy their hobbies and interests.

CHALLENGING PERCEPTIONS

We aim to empower young adults to explore and address mental health issues and well-being. To do so, we will enable members of our communities to improve their lives by coming together and supporting each other to grow in confidence and engage in opportunities. We help to reduce stigma and discrimination by providing information, advice and support and promoting understanding and awareness of mental health issues that young people face.
