

Hugo Lahme 'VitaLight' LED Spa Lights

VitaLight Underwater Lights by Hugo Lahme GmbH offer the best in LED technology and materials for customers requiring exceptional quality and value for money.

Each underwater light is made of corrosion-resistant gun-metal, with a processor controlled board, and 5 metres of silicone cable - protection class III IP68. Stainless Steel (grade 316) front plate, safety glass and silicone gasket seal.

Required Hole size: 50mm diameter **Front Cover:** 71mm diameter **Power/Voltage:** 12V/DC SELV
LED Life Expectancy: 50,000 hours **Power Output:** 4 x 3 Watts **LED Light Output:** 100 lumen/Watt

These lights are designed for use underwater only and must only be used in conjunction with a **Light Supply Unit** from Hugo Lahme according to EN60742.
