AFLDG	Ardex Flex FL - Rapid Set Grout with Built-in Admix - 10kg - Grey	27.50

NEW PRODUCTS - Ardex Flex FS & FL Grout - Flexible Tile Grouts with Built-In Admix, so no need to purchase and mix in any other products
Water repellent and dirt resistant, flexible rapid hardening tile grout for wall and floor tile joints: **Flex FS - Up to 4mm - Flex FL 3-15mm**

Note: Mixing the E90 Admix into the X77W Adhesive will allow you to stick tiles back down in wet conditions, even under water*.

*Only to be used on small repair areas, not mosaics, if you have any queries, please do not hesitate to contact us.

Ardex EG8 Epoxy Tile Adhesive & Grout

Code	Description	Price
GMEG8	Ardex EG 8 Cement/Epoxy Hybrid Grout & Adhesive - 4kg - White	49.50
GMEG8GY	Ardex EG 8 Cement/Epoxy Hybrid Grout & Adhesive - 4kg - Grey	49.50

Ardex EG 8 will prevent water penetration into the cement based adhesive bed of glass tiles, stopping unsightly moisture staining showing through. The hardened EG 8 mortars can withstand full loads after 2 days, and after 7 days it is resistant to aqueous salt solutions, chlorinated water, commercial cleaning agents, alkalis as well as a wide range of dilute mineral acids.

Ardex EG 8 coverage will depend upon tile size and joint width & depth.

Ardex EG 8 combines the technical performance properties of an epoxy grout with the ease of application associated with cement based grouts, with no special tools required. Highly textured tiles may benefit from the use of a hard rubber epoxy squeegee.

Water Based Paint - now sold individually

Code	Description	Price
WBP-LB	Water Based Paint - Aqua Blue 5 litre	POA
WBP-W	Water Based Paint - White 5 litre	POA

Water Based Paint Coverage:
5 litres covers approx. 40 square metres for single coat coverage (Coverage figures are for guidance only and are dependant on the type of surface to be painted).
