### Lutz Jesco Electric Transfer Pump

The Lutz B2 Vario Transfer Pump offers features and benefits to meet the needs of the maintenance technician when transferring **sodium hypochlorite\*\*** and other pool and spa chemicals.

The speed-controllable motor enables small quantities of liquids to be transferred safely and quietly, and the modular construction enables effortless servicing without special tools.

**\*\* Polypropylene is only conditionally resistant to sodium hypochlorite.**

The pump **MUST NOT** be left in the fluid when not in use, and the pump **MUST** be flushed through with clean fresh water after each use.

#### Pump Materials:

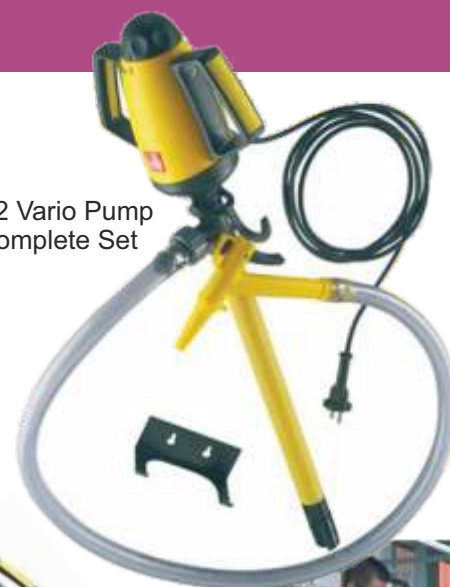

* Housing:	Polypropylene/PVDF
* Impeller:	Polypropylene
* Seals:	None
* Mechanical Seals:	None
* Bearing:	ETFE#/PTFE
# ETFE = Ethylene-Tetrafluoroethylene Copolymer	
* Drive Shaft:	Hastelloy C

All suction tubes are 1000mm long

#### Specification:

* Ultra quiet variable speed motor with safety cut-out
* 200w motor (230v), 180w motor (110v)
* Delivery Rate: 75l/min (230v), 62l/min (110v)
* Delivery Head: 7m head (230v), 5m head (110v)
* Viscosity: up to 300 mPas
* Temp of Liquid: up to 50degC
* Weight: Motor + Suction Tube 2.5kg

B2 Vario Pump Complete Set

Code	Description	Price
Vario-Set230	B2 Vario Pump Complete Set - 230v Pump c/w Lutz-Nozzle, 2 x 3/4" Hose Clips, 1.5 metre 3/4" RPVC Hose & Wall Bracket	645.00
Vario-Set110	B2 Vario Pump Complete Set - 110v Pump c/w Lutz-Nozzle, 2 x 3/4" Hose Clips, 1.5 metre 3/4" RPVC Hose & Wall Bracket	645.00

Spares maybe available by request

### Safety Fill Valve

Code	Description	Price
SFV	Safety Auto Shut-Off Fill Valve Kit c/w 1 metre white semi-rigid plastic fill pipe from valve to day tank, day tank connector & flow valve (15mm cold water supply, compression connections). compression fitting connect.	75.00

**Protects from accidental over-filling of day tank!!**

Push action water fill-up valve - allows fill when continually pressed.  
If you release, then valve closes after 15 - 25 seconds.
