

TEQ® Sauna/Steam Room Milk Essences

For over 26 years, our range of Steam Room Milk Essences have proven to be of a high quality, & exceptional value for money for commercial milk essences in the UK market.

Beware of inferior and weaker alternatives!

We manufacture with a higher than average essential oil content, it has and always will be sold as a "concentrate", and our milk essences can be diluted with fresh water up to 50:1 for automated essence dosing.

Dilution will depend upon dosing pump/system used and customer / operator preference.

Available in 10 Fragrances:

Eucalyptus **Euca-Mint**
Lemon **Lime** **Orange**

When ordering please add Fragrance Code to container code:

E - Eucalyptus **EM - Euca-Mint** **L - Lemon**
O - Orange **LI - Lime** Example: SR23EM = 5 litre bottle Euca-Mint
