Introduction

From basic transport to luxury multiple horse trucks: at Roelofsen Horse Trucks we develop **tailor-made transport solutions**. Custom-made for you, for all branches of equestrian sports. You can design your truck entirely according to your own taste. Your wish is our command. Whether it's with regard to the design of the horse cabin or the colour of the curtains in the living space. **Quality, reliability, service and an eye for detail** are central in the design of our trucks.

We have been specialists in building luxury horse trucks for 30 years, completely geared towards the needs of our customers. What started as a one-man-shop, grew to a business with 65 members of staff and an international customer database. **Craftsmanship, precision and passion:** we are proud of our products. We build all of our horse trucks in Raalte. Quality assurance is the priority. **We'll gladly help you on your way!**

Smart of Xtreme: a truck to suit anyone

We offer seven different truck models: the Profiler RR1, through to the RR7. **All models are manufactured using quality materials.** The trucks have the same base. The distinction is in the size of the horse cabin and the design and size of the living. The luxury livings in our trucks are more than complete, designed and furnished, with atmosphere. Picture luxury parquet floor,

insulated walls, beautiful lining and a beautifully executed ceiling.

At Roelofsen Horse Trucks, we have access to the most extensive collection of materials, colours, equipment and designs. This enables you to design and construct your truck to your taste.

All our trucks are manufactured according to the trusted Roelofsen standards with high level finishing and detailing.

RR1 Smart Line

This truck is especially suited to national competitions and comparable activities. Aside from that, the RR1 is particularly suitable for transport companies. The truck is equipped with a very large horse cabin and the possibility for a tack room.

Transport companies and stalls that regularly tour competitions with multiple horses will definitely benefit from this model.

Features

- 9 till 12 horses
- Compact tack room or living area possible
- Cabin and horse area are separated
- Extra loading space*
- Double side ramp optional

**Due to extra loading space, no living is included.*

This RR1 Smart Line is particularly suitable for national competitions our transport companies.

RR2 Comfort Line

This model has a large horse cabin, and a compact living. This living can be equipped with different kitchen equipment (fridge, microwave, cooker, etc.) and a shower cabin is included. The shower can

also be replaced with a high cupboard. The RR2 is true customisation in which a **variety of designs** are possible.

Features

- 3 till 9 horses
- **Compact living with kitchen unit**
- Possibility for a shower cabin in the living
- Water tanks with a capacity of 100 litres
- Cabin and horse area are separated
- Two couches, face to face with a table in the middle. These seatings can be changed into a sleeping bed.

The RR2 is true customisation truck for 3 till 9 horses with a compact living.

You can keep an eye on the horses through cameras installed in the horse area and reverse parking is made easier with the reverse cameras in place.

The panels can be fitted with special stallion partitions.

RR3 Sport Line

Are you a professional athlete or ambitious amateur continuously on the road with horses? Then the RR3 is right truck for you. This model is equipped with sleeping areas, a shower, a toilet and a complete

kitchen area. In short: **the Sport Line is equipped with all conveniences.** The RR3 also allows direct access from the cabin to the living and the horse area.

Features

- Up to 8 horses
- Comfortable living
- Bathroom in the living area, with shower and toilet
- Clean water tank with capacity of 300 litres
- **Foldaway or electric sleeping accommodation above the cab for two people.**
- Waste water tank with capacity of 250 litres

A hinge at the centre of the partition makes it easily foldable which facilitates loading and unloading the horse via the side tailgates.

Comfort is the starting point from which we strive for maximum performance of the rider and the horse.

Ideal for international tours, tacktrunk with lift system.

RR4 Performance Line

The RR4 has a larger setup than the RR3 and is equipped with more comforts. The bathroom is bigger and accessible from the hall. A sleeping area has been created above the bathroom. You can opt

for a pop-up with this model, which enlarges the sleeping area above the bathroom. This makes the RR4 highly suited to riders who tour internationally as well as nationwide.

Features

- Up to 7 horses
- Bathroom (accessible via the hall) with sink, shower and toilet
- Corner couche with 2 rotating cabin chairs
- Foldaway or electric sleeping accommodation above the cab for two people.
- **Sleeping area above the bathroom**
- Option for pop-up for sleeping area above the bathroom
- Clean water tank with capacity of 400 litres
- Waste water tank with capacity of 290 litres

More spacious than the RR3 with more comfort.

The ramp comes with a rubber cover and integrated horizontal slats. The side panels provide for extra safety when loading or unloading the horses.

The RR5 standard features are exclusive.

RR5 Exclusive Line

The RR5 is the ideal transport for you and your horses, to and from international events. The living in this model has a pop-out, which gives you more space and comfort. **The exclusive design**

of this model is aimed at making your stay as enjoyable as possible. The standard features include a TV, automatic satellite dish and a home cinema set.

Features

- Up to 7 horses
- Pop-out for more living space
- **Seating in the pop-out**
- Electric bed above the cabin for two people
- Sleeping area above the bathroom
- Option for pop-up for sleeping area above the bathroom
- Clean water tank with capacity of 430 litres
- Waste water tank with capacity of 290 litres

RR6 Top Class Line

One word best describes this model: Top class! The RR6 has, as with the RR5, a pop-out. However in the RR6 it's larger which makes it even more spacious.

It makes your stay even more enjoyable. The slide-out is equipped with a so-called U-couche, which includes more seats and a cosy sitting corner.

Features

- Up to 6 horses
- Pop-out for more living space
- **More spacious living than the RR5**
- Electric bed above the cabin for two people
- Sleeping area above the bathroom
- Option for pop-up for sleeping area above the bathroom
- Clean water tank with capacity of 430 litres
- Waste water tank with capacity of 290 litres

Safe and comfortable transport for you and your stars.

Manufactured using the highest quality materials and equipment.

RR7 Xtreme Line

The RR7 is the most luxurious model. The living has a pop-out on both sides. It makes for a very spacious area, with a **fully equipped living area**.

The bathroom in the entry can be made bigger. Therefore, the living has three different rooms.

Features

- Up to 5 horses
- **Double pop-out for more living space**
- **Extra-large bathroom**
- Pop-up for the sleeping area above the bathroom
- Sleeping area above the bathroom
- Electric bed above the cabin for two people
- Clean water tank with capacity of 430 litres
- Waste water tank with capacity of 290 litres

RR7 Xtreme Line*

Horse area standard features include:

- Durable rubber floor with a soft underlay
- Walls are finished with rubber
- Partitions made of stainless steel and aluminium with a transparent PVC mat underneath
- The partitions are easy to adjust, every 10cm on the front and back
- Stainless steel blanket rack with a round butt bar
- Sliding windows at the front and rear of the horses with bars
- Electric fans for air extraction
- LED lighting in the horse section and day & night lighting
- Safe, rubber-coated entry ramp with integrated horizontal slats
- Sufficient grip in all types of weather
- Side panels for extra safety during (un)loading
- Restraining bar with a rubber flap on the tail and/or side ramp
- Stairs with anti-slip rubber that can be folded away
- Outer door for access to the living area and horse area
- Caskets under loading floor for extra storage space
- Water tanks with standard water pump pressure switch and a self-retracting horse reel with spray-gun

Model design plans

If you want, we can personalise the trucks using a variety of extra options. The options that are available aside from the standard features, can be viewed in the options list.

**These models are custom-made. The design shown is an example, but various designs are possible.*

Jeroen Dubbeldam

Roelofsen Riders

Since Roelofsen Horse Trucks was founded in 1987, it's built a solid market position and reputation in the world of equestrian sports. Therefore, internationally renowned riders choose for the quality and luxury of a Roelofsen Horse Truck. Carefree and comfortable travel is the perfect start to a

competition. Among our customers are jump, dressage and event riders, and equestrian athletes in the carriage and western disciplines also choose our trucks. Additionally, we supply to transport companies, stud farms and recreational riders.

Experience the comfort, class and service. The best riders in the world – such as Olympic, World and European champion rider, Jeroen Dubbeldam, GCT winners Edwina Tops-Alexander and Rolf Göran Bengtsson, and many more Roelofsen Riders.

Aside from Horse Trucks, we at Roelofsen also make two-horse cars, trailers with/without living and Tack trunks. In addition to this, we make non-equestrian sports transport solutions in our workshop. We are your chosen partners for manufacturing mobile work spaces, service trucks, motor homes for the race & rally sport and luxury campervans.
