Guests should be seated in Teams

Our format requires diners to be sat together as teams of detectives. We recommend that tables are of (roughly) equal sizes. These tables will become the teams that play against each other to catch the killer. Unless agreed in writing you should **not exceed 12 tables**. This is because the cast of characters will rotate around the room and spend time with all the diners. We have found that 12 tables is the maximum we can accommodate to create a perfect balance for action, conversation, and timing. For more intimate gatherings it is usual to have 2 – 6 tables of diners.

We bring our own sound equipment with us. This will include a microphone, speakers, amp, cables, and stands. All our equipment is PAT tested and a copy of the certificate is available for download if required.

A performance space should be left (approx. 2m x 2m) in the centre of the room or in a location with as few obstacles or site issues as possible.
