Fixed wing and Helicopter types available for charter

Typical aircraft types for charter. Configuration and colours may vary per actual aircraft chartered.

Range figures are average and vary depending on load (number of passengers and baggage).

There are different models and aircraft available. These are the more common. The aircraft ranges are changing as do the models. This is just an indication of what is available. Please ask if you have specific requirements

PROPELLOR

 	EUROCOPTER DAUPHIN OR AIRBUS H155	827KM 447NM	1-2 PILOTS UP TO 8 PASSENGERS

Helicopters are ideal for sporting events as you can land at or very near the event. They require less area to land but would possibly require landowners' permission if landing in a field for example. Also used to speed up transfer to ground transport or yacht.

Contact us for more information on the aircraft / helicopters listed or if you have a specific type in mind:
