BOSCH

en Instruction Manual and Installation Instructions

Your new washer dryer

You have chosen a Bosch washer dryer.

Please take a few minutes to read and become familiar with the advantages of your washer dryer.

To meet the high quality demands required by Bosch, every washer dryer that leaves our factory is carefully checked to ensure that it functions correctly and is in perfect condition.

For more information on our products, accessories, replacement parts and services, see our website www.bosch-home.com or contact our after-sales service centres.

If the operating and installation instructions describe different models, any differences will be pointed out at the relevant points in the text.
Read these operating and installation instructions before switching on the washer dryer.

Contents

🖐 **Intended use**

- For private domestic use only.
- The washer dryer is suitable for machine washable textiles and hand washable wool and for drying certain types of textiles according to care instructions.
- The appliance is suitable for operation with cold mains water and commercially available detergents and care products which are suitable for use in a washer dryer.
- Always follow the manufacturer's instructions when dosing all detergents, cleaning aids, cleaning products and cleaning agents.
- The washer dryer may be operated by children from 8 years of age, by persons who have limited physical, sensory or mental abilities and by persons who have inadequate experience or knowledge, provided they **are supervised** or **have been instructed** by a responsible person. Children must not perform any cleaning or maintenance work without supervision.
- Keep children under the age of 3 years away from the washer dryer.
- Keep pets away from the washer dryer.
- Install and operate the washer dryer in a room which has an outflow.

Before operating the appliance: Read the installation and operating instructions and all other information enclosed with the washer dryer, and use the machine accordingly.

Retain documents for subsequent use.

⚠ Safety instructions

Electrical safety

⚠ Warning
Danger of death!
Danger of death if live parts are touched.

■ When disconnecting the mains plug, always pull the plug itself and not the cable, otherwise the cable could be damaged.
■ Never touch or hold the mains plug with wet hands.

Risk of injury

⚠ Warning
Risk of injury!
■ If the washer dryer is lifted using projecting parts (e.g. the washer dryer door), these components may break off and cause injuries.
Do not lift the washer dryer by its projecting parts.
■ If you climb onto the washer dryer, the worktop may break and cause injuries.
Do not climb onto the washer dryer.
■ If you lean/support yourself on the open door, the washer dryer may overturn and cause injuries.
Do not lean on the open washer dryer door.
■ If you reach into the rotating drum, you may injure your hands.
Do not grip the rotating drum. Wait until the drum stops rotating.

⚠ Warning
Risk of scalding!
■ When washing at high temperatures, you may be scalded if you touch the hot washing water (e.g. if draining hot washing water into a washbasin).
Do not touch the hot washing water.
■ If a drying programme was interrupted, the washer dryer and laundry may be very hot.
Select **Intensive Dry** ☀ or **Gentle Dry** ☼ and select 15 min drying time to cool down the laundry and then remove.

Safety for children

⚠ Warning
Danger of death!
If children play with the washer dryer, they may get into life-threatening situations or injure themselves.

■ Do not leave children unattended near the washer dryer.
■ Do not let children play with the washer dryer.

⚠ Warning
Danger of death!
Children may lock themselves in appliances, putting their lives at risk.
For appliances that have reached the end of their service life:

■ Disconnect the mains plug.
■ Cut through the mains cable and remove it, along with plug.
■ Destroy the lock on the washer dryer door.

⚠ Warning
Risk of choking!
Children may become wrapped in packaging/film or packing parts if allowed to play with them, or they may pull them over their heads and suffocate.
Keep packaging, film and packaging parts out of the reach of children.

⚠ Warning
Risk of poisoning!
Detergents and care products may be poisonous if consumed.
Keep detergents and care products out of the reach of children.

⚠ Warning
Eye / skin irritation!
Detergents and care products may cause irritation if they come into contact with the eyes or skin.
Keep detergents and care products out of the reach of children.

⚠ Warning
Risk of injury!
When you wash/dry at high temperatures, the glass in the washer dryer door gets hot.
Do not let children touch the hot washer dryer door.

♻ Protection of the environment

Packaging/old appliance

Dispose of packaging in an environmentally friendly manner.

This appliance has been identified in accordance with the European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The Directive specifies the framework for an EU-wide valid return and recycling of waste appliances.

Hints and tips

- Utilise the maximum amount of laundry for the particular programme.
  Overview of programmes
  → *Page 20*
- Wash normally soiled laundry without prewash.
- **Energy saving mode:** The display panel light goes out after several minutes, ▷⫿⫿ flashes. To reactivate the display, select any button. The energy-saving mode is not activated if a programme is running.
- The selectable temperatures apply to the care labels on the textiles. The temperatures in the machine may deviate from this so that you get the optimum mix of energy-saving and washing results.
- If the laundry is then dried in the appliance, select the maximum possible spin speed. The less water the laundry contains, the less time and energy are required for drying. Do not dry dripping wet laundry.

The main points in brief
1

Plug into the mains. Turn the tap on.

Open the washer dryer door.

Select the washing/ drying programme

Max. load and/or remaining time in display panel.
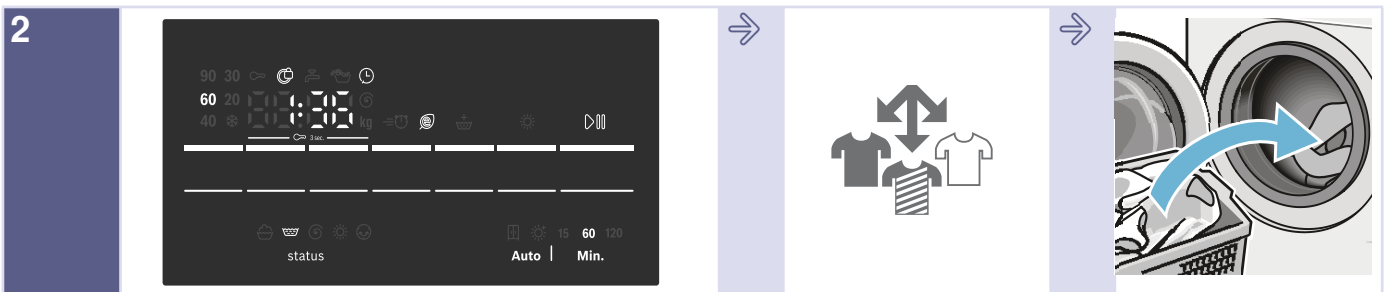

2

If required, change the programme default settings and/or select additional functions.

Sort the laundry.

Load the laundry.
3

Open the detergent drawer.

Dose detergent according to the dosing recommendation.
→ Page 16

Close the washer dryer door.

Select ▷◫◫ **Start**/ **Reload**.
4

End of the programme.

Set programme selecter to **Off**.

Open the door and remove the laundry.

Turn off the water tap, and disconnect the mains plug.

👕 Laundry

Preparing laundry for washing

Sorting laundry according to:

Sort your laundry according to the care instructions and specifications of the manufacturer on the care labels:

■ Type of fabric/fibre
■ Colour
  Note: Laundry can discolour or not be cleaned correctly. Wash white and coloured items separately. Wash new bright fabrics separately the first time you wash them.
■ Soiling
  – **light**
    do not prewash; if necessary select the ⌦ **Speed Perfect** additional function.
  – **normal**
    Select programme with prewash. If required, pretreat stains.
  – **heavy**
    Load less laundry. Select programme with prewash. If required, pretreat stains.
  – **Stains**: Remove/pretreat stains while they are fresh. Firstly, dab with a soap water; do not rub. Then select the appropriate programme and wash the items. Stubborn or dried-in stains can sometimes only be removed by washing several times.
  – Symbols on the care labels
  Note: The numbers in the symbols indicate the maximum washing temperature that may be used.

🧺 Suitable for normal washing process;
e.g. Cottons programme
🧺 A gentle washing process is required;
e.g. Easy-Care programme
🧺 An especially gentle washing process is required; e.g. Delicates/Silk programme
🤲 Suitable for washing by hand; e.g. 🧶 Wool program
🚫 Do not machine wash.

Protecting your laundry and washer dryer:

Caution!
Damage to the appliance/textiles

Foreign objects (e.g. coins, paper clips, needles, nails) may damage the laundry or components of the washer dryer.

The following instructions must be observed when preparing your laundry:

■ Always follow the manufacturer's instructions when dosing all detergents, cleaning aids, care products and cleaning agents.
■ Do not exceed maximum load. Overfilling will impair the washing result.
■ Keep detergents and agents for the pretreatment of laundry (e.g. stain remover, prewash sprays, etc.) away from the surfaces of the washer dryer. Using a damp cloth, immediately remove any fine spray residue and other residue or droplets.
■ Empty any pockets. Remove any foreign objects.

■ Remove metal parts (paper clips, etc.).
■ Trousers, knitwear and knitted textiles, e.g. jersey garments, T-shirts or sweatshirts, should be turned inside out.

- Ensure that underwired bras are machine-washable.
- Wash delicates in a net or bag (tights, underwired bras, etc).
- Close zips, button up covers.
- Brush sand out of pockets and collars.
- Remove curtain fittings or include in the net/bag.

Preparing laundry for drying

Note: To ensure an even drying result, sort the laundry according to the:
- Type of fabric
- Drying programme
- Care symbols which are indicated on the care labels.

Only dry laundry which is labelled "dryer-proof" or which has the following care symbols:

- ⊡ = Dry at normal temperature (**Intensive Dry** ☼)
- ⊙ = Dry at low temperature (**Gentle Dry** ☼)

The following textiles must not be dried:

- ⊠ = care symbol "Do not dry"
- Wool or textiles containing wool.
- Delicates (silk, synthetic curtains).
- Textiles which contain foam rubber or similar materials.
- Textiles which were treated with flammable liquids, e.g. with stain remover, petroleum ether, thinners. Risk of explosion!
- Textiles which still contain hairspray or similar substances.

Notes
- Before drying, hand-washed textiles must be spun at the appropriate spin speed.
- Before drying, spin at the optimum speed. A spin speed of more than 1000 rpm is recommended for cotton, more than 800 rpm for easy-care textiles.
- Do not iron laundry immediately after drying. It is recommended to roll the laundry up first to distribute residual moisture evenly.
- To ensure a good drying performance, quilts, terry cloths and other large textiles should be dried separately. Do not dry more than 5 terry cloths (or 4 kg).
- Do not exceed the maximum load.

🧺 Operating the appliance

## Preparing the washer dryer

The washer dryer was tested before delivery. To remove residual water from the test procedure, the first wash cycle should be run without laundry using the **Drum Clean** ⚬ programme.
Before washing/drying for the first time → *Page 42*

Note:
■ Never switch on a damaged washer dryer!
■ Inform your customer service!→ *Page 35*

1. Insert mains plug.
2. Turn the tap on.
   Due to the use of the water condensation technology for drying, please keep the connected water tap open during the drying process, otherwise proper drying cannot be guaranteed.
3. Open the door.

Selecting the programme/ Switching on the appliance

Note:
If you have activated the childproof lock, you must deactivate it before you can set a programme.

■ Select the required programme with the programme selector. Can be rotated in either direction.
   The washer dryer is switched on.

The following figures are indicated continuously on the display panel for the selected programme:

■ the programme duration,
■ the preset temperature,
■ the maximum load (if the door is open).

Adjusting the washing programme

You can use the displayed default settings or adjust the selected programme optimally to the laundry items by changing the default settings or selecting additional functions. The selectable settings and additional functions depend on the selected washing/drying programme.

Overview of programmes→ *Page 20*

Notes
■ Options can be selected, deselected or changed depending on the progress of the programme.

■ The buttons are sensitive, they only
need to be touched gently. If the
button **°C Temp.**, ⚙ **rpm**,
⏲ **Finished in** is held down, the
setting options are automatically
scrolled through.

Changing default settings for a washing programme, e. g. washing temperature:

■ Touch the **°C Temp.** button to set
desired washing temperature.
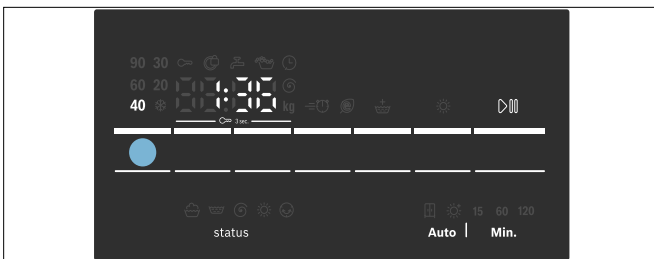

Changing the additional functions for a washing programme, e.g. select ⏱ Speed Perfect:

■ Touch the ⏱ **Speed Perfect**/⊚
Eco Perfect button until the ⏱
indicator light comes on.

Note:
After changing the programme default
settings and/or additional functions, the
programme duration may change.

Adjusting the drying programme

Note:
If an individual drying programme or
washing and drying without interruption
is selected, you can change the default
settings for the drying programme if
required.
Overview of programmes→ *Page 20*

Changing the default settings for a drying programme:

■ Touch the ☀ **Dry** button to set the
desired drying mode or drying time
(only for an individual drying
programme).
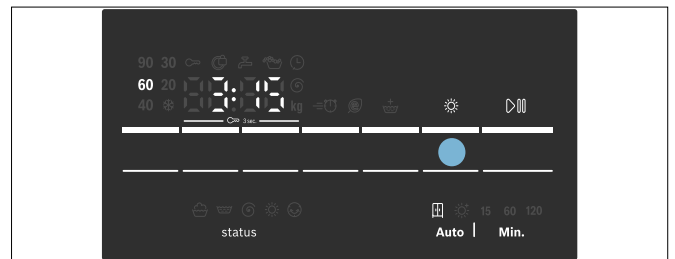

Note:
After changing the default settings for
the drying programme, the programme
duration may change.

Loading the laundry

⚠ Warning
Danger of death!
Laundry items pretreated with solvent-
based detergents, e.g. stain remover/
petroleum ether, may cause an
explosion if loaded into the washer
dryer.
Thoroughly rinse laundry items by hand
before washing.

Notes
■ Mix large and small items. Laundry
items of different sizes distribute
themselves better during the spin
cycle. Individual laundry items may
cause an unbalanced load.

15

- Observe the indicated maximum load. Overfilling adversely affects the washing result and promotes creasing.

1. Unfold presorted laundry items and place in the drum.
2. Ensure that no laundry items are trapped between the door and rubber seal.
3. Close the door.

Note: The indicator light on the ▷⃞ **Start/Reload** button flashes and the default settings for the programme appear continuously on the display panel. Changes may be made to the default settings.

Dosing and adding detergent and care product

Caution!
Damage to the appliance

Detergents and agents for the pretreatment of laundry (e.g. stain remover, prewash sprays, etc.) may damage the surfaces of the washer dryer.
Keep these agents away from the surfaces of the washer dryer. Using a damp cloth, immediately remove any fine spray residue and other residue/droplets.

Dosing

Dose the detergents and care products according to:

- water hardness (ask your water supply company),
- the manufacturer's specifications on the packaging,

- the amount of laundry,
- soiling.

Filling the dispensers

1. Pull out the detergent drawer.
   ⚠ **Warning**
   Eye / skin irritation!
   If the detergent drawer is opened while the appliance is running, detergent/care product may run out. Carefully open the drawer.
   If detergent/care product comes into contact with eyes or skin, rinse thoroughly.
   If accidentally swallowed, seek medical advice.
2. Pour in detergent and/or cleaning product.
Dispenser **I**	Detergent for prewash.
Dispenser ✿	Softener, starch. Do not exceed the maximum load.
Dispenser **II**	Detergent for main wash, water softener, bleach, stain remover.
Dispenser **A**	For dosing liquid detergent.

Notes

- Always follow the manufacturer's instructions when dosing all detergents, cleaning aids, care products and cleaning agents.
- Dilute viscous fabric softener and fabric conditioner with water. This will prevent blockages.
- Be careful when opening the detergent drawer while the appliance is running.
- If an individual drying programme is selected, please do not add detergent and/or care product in the appliance.

Measuring aid* for liquid detergent

*depending on the model

Position the measuring aid for measuring the correct amount of liquid detergent:

1. Pull out the detergent drawer. Press down the insert and fully remove the drawer.
2. Slide the measuring aid forwards, fold it down and click it into place.
3. Reinsert the drawer.
Note: Do not use the measuring aid for gel detergents and washing powder, or for programmes with prewash or when "Finish in" time is selected.

For models without a measuring aid, pour the liquid detergent into the appropriate dispenser and place it in the drum.

Starting the programme

Touch the ▷⫿ **Start/Reload** button. The indicator lamp is lit and the programme starts.

Note: If you want to secure the programme to prevent it from being adjusted inadvertently, select the childproof lock.

The display panel shows the Finished in time while the programme is running or the programme duration and the programme progress symbols when the washing programme has started.

Display panel⟶ *Page 10*

Childproof lock

You can secure the washer dryer to prevent the set functions from being changed inadvertently. To do this, activate the childproof lock when the programme has started.

Activating/deactivating: Touch and hold the buttons ⟳ **rpm** and ⊕ **Finished in** for approx. 3 seconds. The symbol ⌀ is indicated in the display. If the button signal is activated, an acoustic signal sounds.

■ ⌀ lights up: The childproof lock is activated.
■ ⌀ flashes: The childproof lock is active and the programme selector has been adjusted. To prevent the ⌀ symbol from flashing, reset the programme selector to the initial programme. The symbol lights up again.

Note:
The childproof lock may remain activated until the next programme starts, even after the washer dryer has been switched off. If this is the case, deactivate the childproof lock before the programme starts and, if required, re-activate after the programme starts.

Reloading the laundry

When the programme has started, the laundry can be reloaded or taken out as required.

Touch the ▷⫿ **Start/Reload** button. The washer dryer checks whether reloading is possible.

17

Notes

■ If there is a high water level, high temperature or if the drum is rotating, the door remains locked for safety reasons and reloading is not possible.
If the following is indicated on the display panel:
🔒 is lit ⟶ Reloading is not possible. To continue the programme, select the ▷⦙⦙ **Start/Reload** button.

■ Do not open the door until the door lock symbol 🔒 goes out.

■ Do not leave door open for a prolonged period – water could run out of the laundry.

■ The reloading function cannot be activated during the drying phase.

Changing the programme

If you have started the wrong programme by mistake, you can change the programme as follows:

1. Select ▷⦙⦙ **Start/Reload**.
2. Select another programme. If required, adjust the default settings and/or select additional functions.
3. Select ▷⦙⦙ **Start/Reload**. The new programme starts from the beginning.

Interrupting or ending the programme

For programmes at high temperature:
1. Select ▷⦙⦙ **Start/Reload**.
2. To cool down laundry: Select **Rinse** 〰.
3. Select ▷⦙⦙ **Start/Reload**.

For programmes at low temperature:
1. Select ▷⦙⦙ **Start/Reload**.
2. Select **Spin/Drain** ◎/🖾.
3. Select ▷⦙⦙ **Start/Reload**.

For drying programmes:
1. Select **Intensive Dry** ☼ or **Gentle Dry** ☼.

2. Touch button ☼ **Dry** and set drying time to 15 minutes.
3. Select ▷⦙⦙ **Start/Reload**.

End of the programme

End or **– – – –** (**Rinse stop** = without final drain/spin cycle) is indicated in the display and acoustic signal sounds.

Setting the signal ⟶ *Page 27*

If **– – – –** (**Rinse stop** = without final drain/spin cycle) was selected, press ▷⦙⦙ **Start/Reload** button to start the final drain/spin cycle.

Notes

■ The programme continues by pumping out the water and spinning the laundry (the standard spin speed can be changed beforehand).

■ If only the water is to be pumped out, approx. 1 minute after the programme starts, touch the ▷⦙⦙ **Start/Reload** button before the spin cycle starts. The programme is interrupted and the door lock is released. The laundry can be removed.

■ If **Hot** flashes in the display before the drying programme ends, the temperature in the drum is high. The programme for cooling the drum runs until the temperature in the drum has dropped.

■ Wrinkle guard process starts after drying process is finished to prevent laundry getting wrinkle if you do not take laundry out in time. The process lasts about 30 minutes. **0:00** will be displayed in time display and ☺ symbol will be displayed as the status symbol. You can press any button or rotate the programme selector to another position to terminate this process, then the door will be released and laundry can be taken out.

After washing/drying

1. Open the door and remove the laundry.
2. Turn the programme selector to **Off**. The appliance is switched off.
3. Turn off the tap.
   **Not required for Aqua-Stop models.**
Notes
- Do not leave any items of laundry in the drum. In the next wash they may shrink or discolour another item.
- Remove any foreign objects from the drum and the rubber seal – risk of rust.

- Leave the detergent drawer and door open so that residual water can evaporate.
- Always remove the laundry.
- Always wait until the programme ends, as the appliance could still be locked. Then switch the appliance on and wait for the unlocking device.
- When the display panel has gone out at the end of the programme, energy-saving mode is active. To activate the display again, select any button.

⊙P Overview of programmes

Programme on the programme selector

Programme/Type of laundry	Options/Information
Name of the programme Brief explanation of the programme and which textiles it is suitable for.	maximum load according to EN50229
