Dear Parents and Students

Welcome to the Newsletter.

Following our structured programme, this term builds on the foundations put in place in the Autumn Term. Students will start to be exposed to the test format and content to help understand why they are being tutored and the need to be shown the different techniques and question formats.

To support this approach, we are hosting a number of Test Awareness Sessions. These cover VR & Maths Music and the Queens Sports Test and take place at Queens school over February half term.

If you are thinking of booking an event, these are available to book online, please click on the link for details.

For those who have taken on the role to help your child at home but now are considering support from a tutor, we have a few spaces available in our group sessions, (Small groups of 10) please see details below.

We hope you find the information useful. If you have any questions, please let us know, we are here to help.

Mock Transfer Tests

Mock Transfer Events – full 2023 schedule now available

Every year we have parents who say, they wish they had found us sooner. We truly believe the sooner children are exposed to the test environment the better. It helps them to overcome their nerves and starts to focus on their exam preparation. Please don't leave it too late. Remember "Small steps builds success".

In addition by attending early mock tests, our experienced staff are able to observe students and provide feedback to parents prior to registering on the SW Herts Consortium website. This is particularly helpful should a student require additional support.(extra time, separate room, etc)
