

MTT Newsletter Dec 2022

Dear Parents and students

Welcome to the MTT December Newsletter.

Seasons greetings, we hope you have all had a good Autumn term and looking forward to spending time with family over this festive break.

Going forward, the Spring term sees the start of our events programme. Our approach is “Small steps to success” with the initial events being held in a smaller hall to help students overcome their nerves.

We encourage children to attend the early events as this allows our team to observe and monitor how they manage the test and can provide you with early feedback.

Our events are available to everyone and can be booked online. Book 3 or more to get 10% discount.

We pride ourselves in our approach, nurturing and inclusive, supporting students of all abilities and needs. To support students' mental health, we introduced “Mindfulness” techniques at each event, to help students stay calm and focus. If you would like to know more, please contact us.

For those considering, or undecided about tutoring, we offer a range of classes to meet the needs of all students, including trial classes with no obligation. For more details on the classes we offer see below.

We hope this newsletter is useful, please feel free to email any questions. We wish you and your family a Merry Christmas, and safe, healthy new year.

Regards

Gill & Andrew

First events – Its never too early to start but it can be too late.

We recommend that students attend an event early in the year to overcome their nerves and helps them understand why they are being tutored. Importantly it allows our trained staff to observe how students manage the test environment to feedback to parents. This can be important when registering with the SW Herts Consortium if you child requires additional support.

We follow a structured approach, putting in place strong foundations to build on. Our first events are:
