# FINEWOOD MARKETING GROUP

The Finewood Marketing Group is one the UK's leading independent timber agents and stockists, specialising in the supply of hardwood lippings, mouldings, veneers, plywood and doors.

With representatives in the UK, Malaysia, Indonesia, South Africa, Ghana, China and Spain, along with our many years of knowledge and experience allow the Finewood Marketing Group to offer you a complete service.

As a leading UK timber agent, Finewood Marketing UK Ltd specialise in container shipments and can offer a tailored range of services to suit your business, from design specification to inspection, shipment and delivery to customer premises.

Also part of the Finewood Marketing Group, Green Tree Timber Ltd holds a comprehensive range of stock for those with smaller volume requirements. From doors and lippings to glazing beads and veneer layons, Green Tree Timber Ltd can offer different finance options to suit your needs and budget along with a very competitive delivery service.

LARGE OR SMALL, YOUR REQUEST WILL BE MET WITH INDIVIDUAL ATTENTION, INNOVATIVE SOLUTIONS AND EXPERT ADVICE.

# FINWOOD MARKETING UK LTD

## Introduction

Formed in 1993, Finewood Marketing UK Ltd are one of the UK's leading independent timber agents, serving importers and manufacturers in the UK and Europe. Representing leading manufacturers in Malaysia, China, Africa and Europe specialising in the supply of hardwood and softwood doors and door components, mouldings, decking, lippings, veneers, layons and joinery components in both standard designs and to buyers own specifications.

We have experienced local representatives in each main source area who ensure that our customers have access to the best manufacturers with a commitment to quality, service, value and reliability. Daily contact with our representatives and suppliers enables us to inform buyers of the latest market trends, potential supply chain issues and advise on new sources, products and production methods. We aim to develop long term partnerships between manufacturers and buyers by ensuring consistent quality, regularity of orders and price stability.

We offer a comprehensive sales service including contract negotiation, sampling, drawings, trials, designing, packaging, labeling and technical advice.

We have developed close contacts with the world's leading container transport companies. Where the buyer is responsible for transportation we can advise and organise all aspects of cost-effective sea freight, marine insurance, customs clearance, VAT duty deferment, inland haulage and container handling on their behalf.

Our dedicated and confidential finance service provides credit verifications, letters of credit, credit terms, foreign currency advice and bill discounting. These professionally delivered services underpin the relationships we foster between our customers and the manufacturers we represent.

## OUR ENVIRONMENTAL POLICY

Finewood Marketing UK Ltd are members of the UK Timber Trade Federation (TTF) and its Responsible Purchasing Policy (RPP), the Malaysian Wood Moulding & Joinery Council (MWMJC) and the Timber Research and Development Association (TRADA). In 2005 we achieved FSC® and PEFC Chain of Custody accreditation.

The policy of the company is to source product from manufacturers only using raw material from well managed production forest in accordance with the principals of sustained yield management, and to avoid trading in illegally harvested wood, wood harvested in violation of traditional and civil rights, wood harvested in forests where high conservation values are threatened by management activities, wood harvested in forests being converted to plantations or non-forest use and wood from forests including genetically modified trees.

We support FSC®, PEFC and other nationally acknowledged certification programmes and recognise them as truly independent forest certification systems.

## Panels

All our panels are flat or raised and fielded profiled MDF with 0.6mm A Grade veneer Part L option available - Sandwich construction with insulated centre core material.

Typical specifications are 370 x 255 x 46mm, 520 x 255 x 46mm and 670 x 255 x 46mm, with a range of species available including Oak, Hemlock and Red Hardwood.

## Hardwood, Part L, Hemlock & Oak Doors

Doors can be sourced and manufactured specific to customer requirements in both common and bespoke patterns. Fire doors are also available in most patterns. Full or part container loads are available.

## Plywood

Internal & external plywood available with FSC certification in both full panel and doorskin sizes. Overlay grade plywood suitable for laminating also available with vinyl faces.

All our products sourced from Indonesia are SVLK certified, ensuring legality and traceability to verified point of origin, giving you reassurance that you are not purchasing products made from illegal timber.

PRODUCTS SOURCED FROM  
INDONESIA

# PRODUCTS SOURCED FROM MALAYSIA

## Door Lippings

All our lippings are supplied as A Grade hardwood, free of defects. Selected timbers available to match all commercial face veneers. Lippings are supplied fully machined to 90o square and specially kiln dried to 10-12% moisture content. Typical sizes range from 38mm to 60mm, with lengths ranging from 2m to 3m and thicknesses from 6mm up to 25mm. Manufacturing is supervised by our experienced senior representatives located in the main supply areas and sourced from specialist factories that we have worked with for over 20 years.

## Profile Mouldings

DIY decorative and construction clear grade hardwood mouldings in a range of species, available in white primed/painted, veneer wrapped and finger-jointed options. We can supply skirting, architraves, door lining sets, Ovolo, Ogee and customers own profiles. Flooring, wall-panelling, dado rails, picture rails, beadings and PSE's in all sizes with ply-wrapping, shrink wrapping and labelling services at your request. Shipments in 20' and 40' containers and produced in the best equipped and most experienced moulding factories, quality checked by our own local staff.

## Laminates

Laminated scantlings, beams and components produced from Meranti, KSK or any other readily available hardwood species. Laminates can be manufactured as 3, 4 or 5 piece sections using a construction method of fingerjointed throughout, fingerjointed core with clear outers, or clear throughout. Laminates create a product that is more stable than solid construction and reduces the risk of bow, spring or warping, making them ideal for doorframe and window frame production.

## Beading Products

All our beading sets have the option of pre-finish and are available in a range of FD30, FD60 and Part L beads. We can supply a range of species to match commercial veneers and all our beading products can be ordered with matching door lippings in the same container. Typical beading product sizes include Window bead 14 x 19mm, Patio bead 12 x 18mm, FD30 bead 25 x 24mm and FD60 bead 29 x 29mm.

Available in a range of sizes.

## Decking

Available in Yellow Balau (Bangkirai) with both reversible reeded and smooth profile options. Alternative species include Merpauh, Kapur and Meranti.

## Veneered MDF

Available in Okoume and Sapele species, typical thickness 2.7mm MDF with a 0.3mm veneer, with 2050mm length and 830mm width. Widely used in the making of furniture and boat building.

### Door Frames

## DOOR COMPONENTS

### Door Frames

Supplied pre straightened for accuracy and straightness and available in engineered, finger-jointed and solid. Including weather-strip and weather bar and machined to standard and bespoke profiles. Frames available with base coating and fitting, along with a choice of FD30 and FD60 firecheck. All our frames are end worked and ready for assembly and available in a range of species and colours.

### Stiles

Supplied pre straightened and multiripped for accuracy and straightness, with selected timbers available to match commercial veneer species. Engineered, finger-jointed and solid options available, with matching rails if required. Typical specifications include 29 x 30 x 2046mm, 33.7 x 30 x 1992mm, 38 x 38mm and 38 x 47mm.

### Doorskins

Available in Okoume, Illomba and Bintangor face veneers with poplar cores and a choice of interior or exterior glue.

### Door cores and Blanks

Door cores and blanks available in solid and composite plywood faced. Solid door cores are laminated and finger-jointed using Duralock 500 glue. Timber kiln dried to 10-12% moisture content with typical sizes ranging from 25mm thickness through to 42mm, width of 950mm and lengths from 1870mm to 2150mm. Composite plywood faced door cores are constructed in 3 layers of plywood and 2 layers of laminated and finger-jointed hardwood core. The glue used is waterproof quality as specified in JAS/DIN standards and sizes range from 42mm to 25mm thicknesses, 950mm width and 1870mm to 2150mm lengths.

### Door Cores

# PRODUCTS SOURCED FROM AFRICA

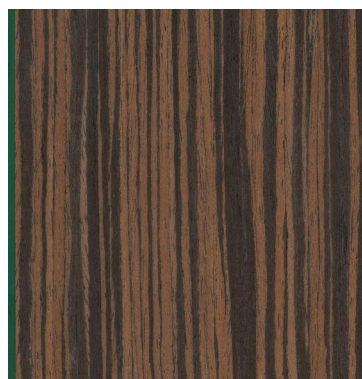

## SOUTH AFRICA

---

### Layons

Door layons inlaid or standard with many design options available. Panel layons in faces and backs in all hardwood species, both tropical and temperate. Available with glue joints and both panel and door options, with the option of FSC Controlled Wood certification.

We supply component and architectural layons for the joinery and furniture industries, manufactured in one of the biggest jointing plants in the world.

### Veneers

We can supply sliced or peeled veneers in all tropical and temperate hardwood species from Africa, China and Europe. Rotary Gaboon available along with the option of FSC Controlled Wood certification. Inspections are carried out by our representatives in Africa and China.

Door, panel, long panel and special length specs available.

## GHANA

---

A number of species available from our Ghana manufacturers including Celtis (Strong light coloured structural wood), Wawa (light coloured versatile interior species, widely used), Denya (Very high strength and durability for arduous applications) and many more commercial species.

A wide range of products are available sourced from Ghana, including Lumber and Mouldings, Lippings, Stiles and Beads.

## Plywood

A full range of commercial plywood available including FSC certified.

B/BB EN636-2, EN314-2 and EUTR Compliant. Available in the following sizes: 2440 x 1220 x 3.6 mm, 5.5mm, 9mm, 12mm, 15mm, 18mm, 22mm and 25mm. FSC Certified Door Panel sizes also available in 2.7 to 6mm.

## Oak & White Painted Doors

White Oak veneered and white painted doors including FD30 fire doors produced to customer specification. We can aid with design and construction advice before orders are placed. Full or part container loads are available.

# GREEN TREE TIMBER LTD

## INTRODUCTION

Specialising in the supply of hardwood products to the joinery trade from our 50,000 square foot warehouse, we stock an extensive product range including door lippings in a variety of species, door and panel veneer layons in matching species, glazing beads, doorframes, high class oak doors, decking, door cores and cills.

We have long, established relationships with the best suppliers and experienced knowledgeable personnel who provide our buyers with expert technical assistance when required.

This allows us to help you source the best species, specifications and prices for your requirements.

## Our Enviromental Policy

Green Tree Timber achieved FSC® & PEFC Chain of Custody accreditation in 2008, through the Timber Research and Development Association (TRADA).

The policy of the company is to source product from manufacturers only using raw material from well managed production forest in accordance with the principals of sustained yield management, and to avoid trading in illegally harvested wood, wood harvested in violation of traditional and civil rights, wood harvested in forests where high conservation values are threatened by management activities, wood harvested in forests being converted to plantations or non-forest use and wood from forests including genetically modified trees.

Green Tree Timber supports FSC®, PEFC, and other nationally acknowledged certification programmes and recognises them as truly independent forest certification systems.

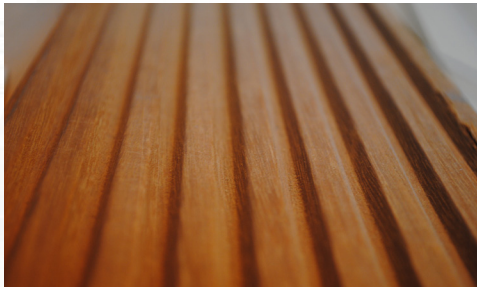

## OUR PRODUCTS

---

### Doors and components

A range of popular white Oak veneered and white painted doors held as landed stock, including fire doors for immediate delivery to customer premises. Customer specific doors can also be held as buffer stock (subject to agreement).

We also hold stock of doorframes, porthole beads, FD30 beads, FD60 beads in a range of sizes.

### Decking

Our decking is available in Bangkirai (Yellow Balau) in both reversible reeded or smooth options.

Hard wearing, knot free and kiln dried with waxed ends. The reversible option allows the choice of large or small grooves and offers anti-slip properties.

### Lippings

Holding stock of 200,000 lippings in a range of alternative species to match Oak, ash, paint grade, walnut and beech in sizes ranging from 6 x 38 to 22 x 60.

### Veneer Layons

Landed stock of Veneer layons covering Oak, ash, maple, beech, walnut, anegre, koto and sapele in a range of sizes. Inlaid veneer also available.

## Glossary

FSC – Forest Stewardship Council (scheme certifying sustainability and legality)
