**Inert Replica 155mm Fuze Setting  
Practice Kit  
Item# : OTA-PZ03**

**Description :**

This kit is designed to be used as an inert 155mm artillery shell during Fuze Setting Training. The body, once assembled, serves as a perfect platform for repeated screwing and unscrewing of artillery shell fuzes. The body of the trainer also holds all the training equipment required inside for easy storage. The trainers' main body unit slides over the base insert (at bottom) as pictured. Inert fuzes and arming equipment are not included. Approx. Weight: 40 LBS

**Inert Replica Iraqi 107mm H.E. Rocket**  
**Item# : OTA-2979**  
**NSN# : 6920-01-5925661**

**Inert Replica Iraqi 107mm Rocket (Deluxe, 100% Metal)**  
**Item# : OTA-2978M**

**Description :**

This training aid is an excellent example of our capabilities. We manufacture these new from raw materials. This replica 107mm rocket is 100% machined metal and can be disassembled and assembled just like the real thing. The inert replica fuze removes and further disassembles. Solid steel warhead removes, as well as the Rocket motor collar sections, and the rear venturis are present. This is an excellent and safe classroom training display as this was never at any time a real or "live" rocket.

**Inert Replica 107mm Chinese H.E. Rocket**  
**Item# : OTA-2978B**  
**NSN# : 6920-01-6089593**

**Inert Replica 107mm Iraqi Rocket Cut Away / Cross Section (Deluxe, 100% Metal)**  
**Item# : OTA-2978MC**

**Description :**

This replica 107mm rocket is 100% machined metal and cut perfectly in half. We then add all the internal detailing and finishing touches. This product cannot be disassembled; however this makes an excellent classroom training display.
