QU'EST-CE QUE C'EST GT FLEET ALARM ?

Il s'agit d'un système pour la **gestion** et le **contrôle** des **véhicules d'entreprise**, qui permet **leur protection contre le vol**, la **gestion de leurs activités** et **d'économiser sur la consommation de carburant**.

COMMENT ÇA FONCTIONNE ?

Via la plate-forme web et/ou l'app, il est possible de surveiller vos véhicules sur la carte et **consulter les rapports** pour chacun d'eux: **kms parcourus, arrêts et consommation de carburant**, en **réduisant considérablement les coûts des entreprises**.

Le dispositif est facile à installer et, grâce à la technologie GSM/GPRS, vous permet de **communiquer directement avec les conducteurs**.

Affichage de la position de tous les véhicules sur une seule carte

The screenshot displays the GT FLEET software interface. On the left, a map of Europe shows the location of various vehicles marked with red and green icons. The map includes labels for countries like Francia, Svizzera, Austria, Ungheria, Italia, and Grecia. A search bar at the top right of the map area contains the text "SITUAZIONE MEZZI IN TEMPO REALE". Below the map, there is a table with columns for ID, Targa, Utilizzat., and Stato. The table lists 20 vehicles with their respective details. At the bottom of the interface, there are several control elements: a search bar labeled "CERCA INDIRIZZO", a status bar showing "0:48" and "Google", a "Macnil Gruppo Zucchetti" logo, and a control panel with a gauge showing "22" and "27", and checkboxes for "Mezzi in movimento", "Mezzi fermi", "Mezzi non in copertura GPRS", "Blocca vista", and "raggruppa".
