ClickShare

Great things happen when people click

BARCO

Welcome
to the new
ClickShare
Conference

Throughout history, people have worked together. Almost everything worthwhile began with someone sharing something, others listening, and then everyone building on it together.

Yet the reason working together works is the same reason it sometimes doesn't: our differences. That's why we developed the new ClickShare Conference – wireless conferencing technology that creates understanding between people by freeing them to interact easily and naturally. We believe that when this happens, meetings are transformed. Energy is born. People get engaged and pulled in. Flow builds. And companies become communities bursting with ideas and innovation.

**It's simple: Great things happen when people click.**

Better hybrid meetings

Wireless conferencing has arrived. The world's workspaces are changing like never before.

As more and more people are working remotely and flexibly, office spaces and "meetings" are being radically transformed. A workplace flashpoint, ignited by the spark of the pandemic resulted in a move from primarily face-to-face interaction to home working and remote collaboration. A growing fatigue in an exclusively work from home approach and a much needed new balance between home office and workplace resulted in hybrid ways of working and meeting (i.e. employees are partly remote and partly in-office), where video has been embraced as a natural way of collaboration.

Now, as we step-by-step return to the office, it has become clear that connecting in-room and remote participants is still far from an engaging experience. That's why we developed ClickShare Conference, the world's most intuitive wireless conferencing solution.

On average, people used six different conferencing solutions in the last six months.

Future of Meetings research, ClickShare

How do you
get people to collaborate smoothly
in a hybrid working environment?

How do you
seamlessly connect everyone
no matter where they are?

How do you
do it all while delivering a
smooth tech experience?

The answer is ClickShare.
Simple, easy, wireless. That's how
ClickShare Conference shares the apps
from your laptop on the meeting room
display and wirelessly connects them to
the camera's, speakers and mics in the
room for better hybrid meetings.

Bring your own meeting

In today's hybrid and virtual workplace, people have their own devices, habits and expectations. They want to walk in and start meetings in their own way without hassle and host from their laptop. That's how it should be.

With the new ClickShare Conference, you are free to work with the conferencing tools you prefer. The tools that make you most productive. From screen and speakers, mic, to camera, everything in the room becomes part of your laptop – meaning you're ready to share content and capture imaginations with a wider range of media and functionality. ClickShare Conference truly empowers your meeting room for better Bring Your Own Meeting (BYOM).

No time wasted

We've all been to that meeting. The one that never seems to start. Where nobody can find the right cable, or everybody has a different dial-in number. Until a frantic call to IT is made and the problem-solving begins...

With the new ClickShare Conference, your colleagues and clients never have to attend that meeting again. Ever. You simply walk in the room, connect and within 7 seconds you're ready to start working. It really is an easy, unique one-click experience, since you only need one click to join your videocall, one click to share content and one click to sync.

71%
of people can choose the conferencing solution they want for meetings*

Perfect Meeting research, ClickShare

The beauty of button and app

The ClickShare Conferencing Button and ClickShare App work together to deliver a rich, seamless meeting experience.

The Conferencing Button

Plug the Conferencing Button into your laptop, to access wireless conferencing and click to share content

In seconds, you are wirelessly connected to cameras, soundbars and other AV USB peripherals* in the room for a better, more immersive meeting experience. Everything becomes part of your laptop.

You get richer audio. You have wider views of the room. You can also add video to your mix. And all of that wirelessly. No cables, no hassle, more flexibility.

Seamless one-click experience

- **One click to join** your conference
  With just one click in the ClickShare App you join the next virtual meeting on your agenda.

- **One click to share** your content
  Start sharing content in a Microsoft Teams, Zoom or Webex call and ClickShare automatically shares the same content to the meeting room display

- **One click to sync** for higher engagement

The ClickShare App

Features for more intuitive collaboration

The ClickShare App for laptops makes collaboration more intuitive than ever before. The App easily connects to the meeting room, offering screen sharing as well as a host of advanced features. You get access to a set of advanced collaboration features (that we will continuously expand):

- **Calendar integration:** Your next video call/virtual call (Teams, Zoom, Webex) is shown in the ClickShare App and with one click your meeting (app) automatically starts

- **Pause:** freeze the content shared on the meeting room screen while you prepare what to show next

- **Window selection:** select the application or document you want to show from all open windows on your laptop

- **Moderation:** control your meeting and preview all documents to decide what appears on screen with all people involved, regardless of whether they are sharing with the App or the Button

- **Extended desktop:** perfect if you want to share from your laptop and at the same time take notes

- **Interactivity:** enriched collaboration with annotation and blackboarding

- **Local view of the room display:** view the main display on your personal device and share with remote participants in your video call

Button and Collaboration App at a glance

Conferencing Button

- Plug in and have immediate access to wireless conferencing

- Single-click screen sharing

- Intuitive design makes it easy for guests to use

- With additional Quick Button for easy access to a range of advanced features

ClickShare App

- Join the conversation effortlessly

- Access advanced collaboration features (e.g. pause function, window selection, moderation, interactivity, second screen)

Three times as flexible

In order to involve as many people as possible in the transformed world of conferencing, the new ClickShare Conference recognizes every type of collaborative technology and works with it straight away. The only things it doesn't recognize are barriers.

Triple agnostic

- ○ Compatible with your laptop

- ○ Works with your conferencing platform (Microsoft Teams, Zoom, Webex,.)

- ○ Connects wirelessly with your brand of USB peripherals* (speakers mic, webcams, soundbars) when using the ClickShare Conferencing Button

The same easy, wireless experience, from huddle to boardroom

With the new ClickShare Conference, everyone across the organization can enjoy a seamless experience — no matter where or how they're working.

In fact, the technology is so simple and intuitive, anyone can start a meeting anywhere. Just plug in the Button and everything you need is provided automatically. Wirelessly connect to USB room camera, mic and speakers for easy videocalls. Launch the App for intuitive wireless content sharing and presentation.

Whether it's a quick huddle over coffee or a formal presentation in the boardroom, the new ClickShare Conference makes it easy for people to click so that great things can happen.

Turn your meeting in a VC room with intuitive, wireless BYOM capabilities overnight.

Integrated everywhere

The new ClickShare Conference is designed to fit your business perfectly and evolve with it. With flexibility for the future built in, it's one of the smartest investments you can make.

Designed for your network

Whether you want to connect one unit to the network via ethernet or create a dedicated VLAN for all ClickShare units, you can simply integrate seamlessly with your network. For more details on network integration, get in touch with your Barco Contact

Secure by design

Every ClickShare communication is authenticated and encrypted by default, harmonizing with your network and governing security principles.

ISO 27001 certified

ClickShare was the first wireless collaboration technology to obtain ISO 27001 Certification, demonstrating our commitment to the right processes and structures for the highest international security standards.

Management dashboard

Managing ClickShare across your business is simple with our XMS (Cloud) Management Platform. Units are discovered easily and added to the management console with key information available on a dashboard. Administrators can intervene remotely without interrupting the meeting.

Insights integrated

Imagine having instant insights on how often meeting rooms are used and how people use ClickShare when things are hectic or quiet. With the insights module of the XMS (Cloud) Management Platform, you can understand behavior in the workplace and run your workspace more efficiently.

Always up-to-date

The new ClickShare is always new. It can be updated automatically, at scheduled times with your XMS (Cloud) Management Platform console or manually. You can be sure you have the latest version of wireless conferencing to give you the competitive edge.

SmartCare

Includes five years of warranty and a license to the XMS insights module, as well as advanced access to the helpdesk.
Be sure to register your ClickShare Conference devices to unlock 5 years of SmartCare coverage!
