DECORACIÓN/ DECORATION/DECORATION

Escayolas Arnaiz, una empresa que sabe evolucionar adaptándose a las exigencias que conlleva el rápido crecimiento del mercado en el sector de la construcción y decoración.

Donde profesionales desarrollan un esmerado trabajo gracias a su amplia experiencia, avalada por una tradición familiar que se remonta a más de 40 años, dedicada a facilitar en todo momento la labor del cliente, atendiendo a todas sus necesidades e incluso proyectos que requieran una atención personalizada.

La industrialización y mecanización de los procedimientos solo nos ha influido en hacer nuestros productos con mayor calidad y rapidez, manteniendo siempre el concepto artesanal de nuestro trabajo, consiguiendo por lo tanto un acabado de calidad perfecta y cualidad artesanal.

EA amplía su catálogo de productos, presentando a continuación una pequeña muestra que sirve para acercar más nuestra empresa a aquellos clientes que quieren contar con un equipo de profesionales para llevar a cabo sus diseños e ideas en el arte de la escayola.

Escayolas Arnaiz, a company that knows evolve to adapt to the demands made by the rapid market growth in the construction and decoration.

Where he developed a meticulous professional with an extensive experience, backed by a family tradition that goes back over 40 years, dedicated to facilitating the work at all times the client, attending to all your needs, or even projects that require personal attention.

Industrialization and mechanization of processes has influenced only make our products with better quality and speed, while maintaining the traditional concept of our work, thus achieving a perfect quality finish and quality craftsmanship.

EA expands its product portfolio, introducing then a small sample that serves to bring more business to our customers who want to have a team of professionals to carry out their designs and ideas in the art of the cast.

Escayolas Arnaiz, une entreprise qui sait évoluer pour s'adapter aux exigences formulées par la croissance rapide du marché dans la construction et la décoration.

Où il a développé un professionnel méticuleux avec une grande expérience, soutenue par une tradition familiale qui remonte à plus de 40 ans, consacré à la facilitation du travail à tout moment le client, assister à tous vos besoins, ou même des projets qui nécessitent une attention personnelle.

L'industrialisation et la mécanisation des processus a influencé seulement rendre nos produits avec une meilleure qualité et la vitesse, tout en conservant le concept traditionnel de notre travail, réalisant ainsi une qualité de finition parfaite et de l'artisanat de qualité.

EA élargit son portefeuille de produits, présentant alors un petit échantillon qui sert à faire plus d'affaires à nos clients qui veulent avoir une équipe de professionnels pour réaliser leurs conceptions et idées dans l'art de la fonte.

CARACTERISTICAS TECNICAS COMPOSICION

Mezcla de yeso o Escayolas con estructura micro cristalina y fibra de vidrio.

RESISTENCIA AL FUEGO

Clasificación MO no combustible, (norma UNE 23-727-90). El yeso o escayola es un material ignífugo con excelentes características de seguridad.

ABSORCION HUMEDAD

La naturaleza higroscópica del yeso lo convierte en un material idóneo para una sana regulación higrométrica ambiental, en cuanto absorbe la micro humedad cuando es excesiva evitando condensaciones y deformaciones. Restituye la humedad en el momento que el ambiente este seco.

ABSORCION ACUSTICA

Fonoabsorbente gracias a su porosidad, el yeso mezclado con fibra de vidrio y con superficies decoradas, aumenta todavía más esta característica consiguiendo una buena corrección acústica.

CONDUCTIVIDAD TERMICA

Altamente aislante, la conductividad térmica del yeso es de 0.15 a 0.19 Kcal/Hm2°C.

VENTAJAS ECOLOGICAS

Nuestros productos están totalmente exentos de productos tóxicos y no emiten bajo ninguna condición gases nocivos.

PINTURA

Todos los productos son blancos al máximo nivel de tonalidad. Aceptan con total facilidad pintura.

TECHNICAL SPECIFICATIONS COMPOSITION

Plasters gypsum plaster or with microcrystalline structure and fiberglass.

FIRE RESISTANCE

MO Classification noncombustible (UNE 23-727-90). Gypsum or plaster is a fireproof material with excellent safety features.

MOISTURE ABSORPTION

The hygroscopic nature of gypsum makes it an ideal material for sound environmental hygrometric regulation, as it absorbs moisture when excessive micro preventing condensation and deformations. Restores moisture when the atmosphere is dry.

ACOUSTIC ABSORPTION

Absorbing with its porosity, gypsum mixed with fiberglass and with decorated surfaces, this feature further enhances acoustic achieving good correction.

THERMAL CONDUCTIVITY

Highly insulating, the thermal conductivity of gypsum is 0.15 to 0.19 Kca / Hm2°C.

ECOLOGICAL BENEFITS

Our products are completely free of toxic chemicals and do not emit harmful gases under any condition.

PAINTING

All products are white at the highest level of tonality. Allow paint with ease.

CARACTERISTIQUES TECHNIQUES COMPOSITION

Plâtres plâtre ou avec une structure microcristalline et fibre de verre.

RÉSISTANCE AU FEU

MO Classification incombustible (UNE 23-727-90). Gypse ou de plâtre est un matériau ignifuge avec d'excellentes caractéristiques de sécurité.

L'ABSORPTION D'HUMIDITÉ

La nature hygroscopique de gypse en fait un matériau idéal pour la régulation hygrométrique de son environnement, car elle absorbe l'humidité quand micro excessives éviter la condensation et les déformations. Restaure l'humidité lorsque l'atmosphère est sèche.

L'ABSORPTION ACOUSTIQUE

Absorption avec sa porosité, le gypse mélangé avec fibre de verre et avec des surfaces décorées, cette fonctionnalité améliore encore la réalisation acoustique bonne correction.

CONDUCTIVITÉ THERMIQUE

Hautement isolant, la conductivité thermique de gypse est de 0,15 à 0,19 Kcal / Hm2°C.

AVANTAGES ECOLOGIQUES

Nos produits sont totalement exempts de produits chimiques toxiques et ne émettent pas de gaz nocifs dans toutes les conditions.

PEINTURE

Tous les produits sont de couleur blanche au plus haut niveau de tonalité. Laisser la peinture avec facilité
