### A versatile examination table with C-arm capabilities

The 6210 fluoroscopy procedure table offers the physician standing, seated and supine positioning capabilities. This versatile table easily adjusts from or to standing, seated, and supine positions via a hand held control thus creating a table that is easily accessible to patients of any age. The side-mounted cantilevered design offers the physician anterior/posterior, lateral and oblique views without obstruction. For added convenience, the table is equipped with a battery backup for short-term use in case of power failure or in emergency situations. The superb C-arm access and wide range of positioning possibilities make the 6210 the ideal table for any fluoroscopy procedure.

#### Features:

- Three motors offer unparalleled positioning and access options.
